

The POROS logo consists of the word "POROS" in a white, uppercase, sans-serif font, centered within a solid black square.

POROS

INFORMATIONAL REFERENCE DOCUMENT

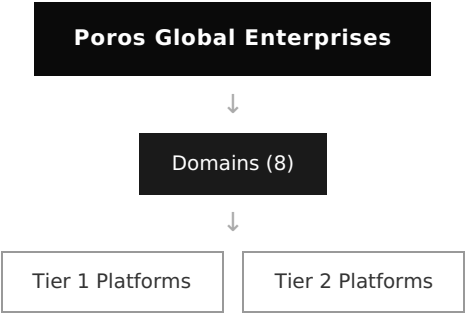

Domains & Subsidiaries One-Pager

A reference document outlining the eight domains and
named operating entities of Poros Global Enterprises.

Organizational Structure

Poros Global Enterprises allocates capital and resources across eight domains. Domains represent long-term allocation mandates. Subsidiaries represent operating platforms currently deployed within those mandates.

The existence of a subsidiary should not be interpreted as the existence of investment activity, and the absence of a subsidiary should not be interpreted as inactivity.

How to Read This Document

Tier 1	Principal operating platform for a domain. Tier 1 entities typically house long-term operating infrastructure within their domain.
Tier 2	Specialized operating entity within a domain. Tier 2 entities deliver focused capabilities and sit alongside, not above, domain platforms.
Interest Area	Presented as an area of investment, acquisition, or development interest. No dedicated operating platform currently exists within the domain.

DOMAIN 01

Finance

The Finance Domain focuses on capital allocation, ownership transitions, institutional due diligence, and the proprietary intelligence systems that support disciplined investment decisions across the Poros ecosystem.

Poros Central Fund The primary capital allocation vehicle of the Poros ecosystem. The fund evaluates opportunities across subsidiaries, acquisitions, strategic investments, and long-duration asset classes while supporting growth initiatives throughout the portfolio.	TIER 1
Poros & Associates Supports buy-side acquisitions, sell-side exits, ownership transitions, corporate development initiatives, and strategic advisory engagements. Helps entrepreneurs, investors, and operators navigate acquisitions, capital planning, business structuring, and ownership growth.	TIER 2
Poros Ventures The institutional due diligence and investment intelligence platform of Poros Global. Evaluates investment opportunities, conducts business and market diligence, supports capital raises, and develops proprietary investment frameworks used throughout the ecosystem.	TIER 2

DOMAIN 01 · CONTINUED

Finance

Poros Ventures Alpha Reserve Fund (PV-ARF)

TIER 2

Research-driven investment strategies, capital preservation frameworks, and the development of proprietary intelligence systems designed to improve capital allocation decisions across public and private markets.

CAT (Capital Allocation Technology)

TIER 2

Proprietary capital allocation intelligence system that evaluates market conditions, liquidity environments, risk regimes, and capital deployment opportunities. CAT is built around state validation, risk governance, and capital preservation, requiring statistically supported evidence before capital is allocated.

Note: Entities within the Finance domain operate as specialized platforms supporting the broader Poros ecosystem and are not, individually, the primary identity of Poros Global Enterprises.

DOMAIN 02

Technology

The Technology Domain focuses on proprietary software, infrastructure intelligence, artificial intelligence systems, underwriting technology, and emerging technologies designed to improve operational efficiency, decision making, and long-term enterprise value creation.

Quantum XII Holdings Poros Global's advanced technology and infrastructure platform, focused on data centers, computational infrastructure, artificial intelligence systems, and next-generation energy research. The platform evaluates opportunities where technology, infrastructure, and long-duration capital intersect.	TIER 1
APIQ A proprietary paving-focused operating intelligence platform built for asphalt, paving, and infrastructure contractors. APIQ combines procurement intelligence, operational data, engineering inputs, and business logic to support project sourcing, bid qualification, estimating, plant selection, routing, cost modeling, and proposal generation.	TIER 2

DOMAIN 03

Insurance

The Insurance Domain focuses on underwriting intelligence, insurance operations, reinsurance strategy, risk evaluation, and long-duration balance sheet businesses.

Poros Re Poros Global's long-term insurance and reinsurance platform, designed around disciplined underwriting, risk selection, capital efficiency, and long-duration insurance float as a strategic asset class.	TIER 1
AJIT Agentic Judgment Intelligence Terminal — the underwriting intelligence engine of the Poros insurance ecosystem. AJIT evaluates submissions, policies, claims, books of business, and reinsurance structures through governed decision frameworks and institutional risk memory, while maintaining human oversight and approval.	TIER 2

DOMAIN 04

Real Estate

The Real Estate Domain focuses on development, acquisitions, property operations, real asset ownership, and long-term value creation through institutional real estate strategies.

Cilarc Group The real estate acquisition, development, and asset management platform within the Poros ecosystem. Focused on ownership, development execution, operational systems, and long-term real asset value creation.	TIER 1
Development Coalition A permanent development and acquisition platform within Cilarc Group that brings together operators, developers, capital partners, and execution specialists to pursue large-scale development projects, strategic acquisitions, and infrastructure-intensive opportunities.	TIER 2

DOMAIN 05

Energy

INTEREST AREA

Poros Global maintains an active interest in energy-related investments, infrastructure assets, power generation systems, grid modernization, energy technology, and strategic opportunities supporting long-term industrial growth.

INVESTMENT INTERESTS

— Power generation

— Energy storage

— Renewable energy platforms

— Energy technology development

— Grid infrastructure

— Data center energy solutions

— Industrial energy assets

— Utility-adjacent infrastructure

DOMAIN 06

Logistics

INTEREST AREA

The Logistics Domain focuses on transportation networks, supply chain infrastructure, fleet operations, warehousing, freight services, and critical logistics platforms that support broader industrial and commercial ecosystems.

INVESTMENT INTERESTS

- Transportation companies
- Warehousing
- Supply chain technology
- Distribution networks
- Fleet operators
- Freight services
- Infrastructure logistics
- Industrial services

DOMAIN 07

Raw Materials

INTEREST AREA

The Raw Materials Domain focuses on ownership, distribution, processing, and strategic control of essential industrial inputs used across construction, manufacturing, infrastructure, and energy sectors.

INVESTMENT INTERESTS

- | | |
|-------------------------|-----------------------------|
| — Aggregates | — Construction materials |
| — Industrial minerals | — Specialty materials |
| — Processing facilities | — Distribution platforms |
| — Supply chain assets | — Resource-based businesses |

DOMAIN 08

Pharmaceuticals

INTEREST AREA

The Pharmaceuticals Domain focuses on healthcare infrastructure, medical technologies, pharmaceutical distribution, wellness platforms, and strategic healthcare-related acquisitions.

INVESTMENT INTERESTS

- Pharmaceutical distribution
- Medical devices
- Healthcare technology
- Clinical support services
- Healthcare services
- Specialty healthcare operators
- Wellness infrastructure
- Healthcare portfolios
